

LRP

**LIQUID
RUBBER
PAINT**

Hyper Premium Waterproofing Formula

The Problem

What Are You Facing?

Common Issues with Roof Waterproofing

Water Leaks & Penetration

Roof surfaces exposed to rain and humidity can develop cracks, allowing water infiltration that leads to costly damage.

UV & Environmental Damage

Harsh sunlight and weather conditions cause roof coatings to degrade, fade, and lose effectiveness over time.

Cracks & Peeling Coatings

Many waterproofing solutions fail due to poor flexibility, causing cracking and peeling as surfaces expand and contract.

Difficult Application & Maintenance

High maintenance cost of alternative systems or lack of existing waterproofing system.

The Solution

How Liquid Rubber Paint™ Can Help

**LIQUID
RUBBER
PAINT**

New generation water based acrylic elastic long life waterproofing coating for use with and without a premium membrane for sealing roofs from water penetration.

RubberTech™ Liquid Rubber Paint™ LRP™ is expertly formulated with highly durable and flexible, pure acrylic that has a high scrub

resistance and manufactured using only the best quality additives and pigments. Accredited as a hyper premium waterproofing solution and designed to, with correct application, exceed its warranty as a long-life waterproofing sealant.

With easy application and a seamless finish, RubberTech™ Liquid Rubber Paint™ is a reliable solution for waterproofing projects, delivering long-lasting protection against water, UV rays, and environmental wear.

Flexibility

Benefits of Using Liquid Rubber Paint™

Multipurpose Applications

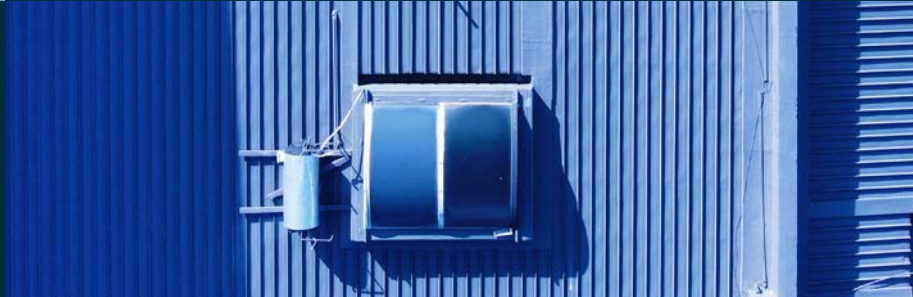

Superior Waterproof Barrier

Forms a thick, watertight membrane that effectively prevents water penetration.

Highly Flexible & Durable

Expands and contracts with surface movements, preventing cracking and peeling.

UV & Environmental Resistance

Protects against harmful UV rays, preventing degradation and maintaining color integrity.

Easy Application, Versatile Use

Can be applied with a brush, roller, or airless spray on a variety of surfaces, including tiles, metal, and cement.

RubberTech
EXPERT FORMULATIONS

RubberTech™ boasts an array of highly adhesive and expertly formulated Liquid Rubber Paint™ and other roof repair and waterproofing products.

AlgenTech XE Protect™ Advanced Sterilizing Solution

AlgenTech™ a powerful cleaning and sterilizing solution that protects surfaces from pollutants and bio-organisms. AlgenTech™ XE Protect is added to RubberTech™ Liquid Rubber Paint™ to prevent microbial, fungus, and algae growth, enhancing waterproofing longevity.

ClearPrep™

ClearPrep is an elastomeric acrylic resin emulsion that protects, seals, and waterproofs roofing structures by creating a seamless, flexible, and durable membrane resistant to environmental elements.

AsbestoSeal™ Advanced Asbestos Encapsulator

AsbestoSeal™ a specialized encapsulation solution that safely binds and seals asbestos-containing materials (ACMs) and weathered fiber cement to prevent hazardous fiber release. It also inhibits bacterial growth, extends material lifespan, and eliminates the need for costly asbestos removal.

FiberPrep™

FiberPrep™ is a high performance liquid rubber preparation reinforced with cellulose fibers. Expertly formulated to seal cracked roof tiles, edges, and other openings that may compromise the integrity of the substrate.

RubberTech™ High Performance Bonding Primer

RubberTech™ Bonding Primer, a premium primer designed for superior adhesion on roofing substrates, ensuring durability and a strong foundation for watertight and weather-resistant coatings.

RubberTech™ Hyper Premium Waterproofing Liquid Rubber Paint™

RubberTech™ Liquid Rubber Paint™ – New generation water based acrylic elastic long life Water Proofing coating for use with and without a premium membrane for sealing roofs from water penetration.

Liquid Rubber Paint™ with Rost Guard™

New Generation Liquid Rubber Paint™ with added Rust Prevention is specifically formulated for metal roofs. This unique corrosion-inhibiting formula ensures excellent adhesion to metal surfaces while forming a seamless, flexible, and durable waterproofing membrane. Engineered for long-lasting protection, it prevents water penetration, and shields metal surfaces from rust and degradation. It's the ultimate solution for dependable protection.

Thermo Liquid Rubber Paint™ with RostGuard™

Our Heat-Reflective, Liquid Rubber Paint™ with Rust Prevention is a new generation cool roof technology of high-performance coatings designed to provide comprehensive protection for metal and slate roofs in both residential and commercial applications. Engineered with cutting-edge waterproofing, heat-reflective, and anti-corrosion technology, this solution extends the lifespan of roofing surfaces by preventing water infiltration, reducing heat absorption, and inhibiting rust formation on metal substrates.

RostTech™

RostTech™ Rust is a water-based rust converter with a polymer primer that deeply penetrates rust, converting it into a stable compound that can be over-coated without stripping it back to bare metal.

ThermoTech™ Cool Roof Technology Waterproofing

Next generation ThermoTech™ Titanium liquid rubber paint effectively reflects up to 85% of UV & infrared solar radiation and convects heat instead of transferring it into the building. Thermo Tech™ Cool Roof Technology substantially contributes to a building's process efficiency, comfort and has benefits of saving on energy and running costs.

RostGuard™ Advanced Rust Inhibitor

RostGuard™ is a cutting-edge rust prevention solution designed to protect metal surfaces from corrosion. Innovative, eco-friendly formula halts corrosion while preparing the surface for over-coating, eliminating the need for abrasive rust removal when used with RostTech™ water-based rust converter.
